Book Summary: (From Common Sense Media)

Ways to Make Sunshine, by Coretta Scott King Award and Newbery Medal winner Renée Watson (Piecing Me Together), 11-year-old Ryan, an African American girl, adjusts to changes in her family life and her last year of middle school. The landlord sold the place where she lives and her dad has lost his job as a postal carrier. The family moves into a smaller house and has to live on a budget, but they make themselves at home there. Ryan still gets to cook with her mom, the extended family still gathers for Easter, and Ryan now lives closer to her friend KiKi. Ryan faces some challenges like getting over her stage fright and bickering with her older brother, Raymond. There's a scene where Ryan is embarrassed when her straightened hair reverts to its natural state while she's at a pool party with White friends. Nina Mata's illustrations add appeal for younger readers.
